Remarks on the farm name *Krabbagården*

By *Svante Strandberg*

Farms by the name of *Krabbagården*, located within villages, are found in the Västergötland parishes of Floby, Istrum and Vist. In the same province, the farm name *Krabbegården* occurs in the parishes of Kvinnestad and Ås. The names in Floby, Istrum and Ås have been assumed to contain the Old Swedish male byname *Krabbe*. Those in Kvinnestad and Vist have been explained with reference to individuals with *Krabbe* as an additional name of an unspecified character.

Historical and genealogical sources show that *Krabbagården* in Istrum contains a (Danish) aristocratic family name *Krabbe*. The same explanation seems natural for *Krabbegården* in Ås. The other three farm names may also, for the time being at least, be regarded as possibly containing the noble name *Krabbe*.
